Plant Cell, Tissue and Organ Culture **24**: 247–248, 1991

CONTENTS Volume 24 1991

Volume 24 No. 1

Brand M.H. & Lineberger R.D.: The effect of leaf source and developmental stage on shoot organogenic potential of sweetgum (*Liquidambar styraciflua* L.) leaf explants 1
He D.-G., Yang Y.-M. & Scott K.J.: Zinc deficiency and the formation of white structures in immature embryo cultures of wheat (*Triticum aestivum* L.) 9
Jarret R.L. & Gawel N.: Abscisic acid-induced growth inhibition of sweet potato (*Ipomoea batatas* L.) in vitro 13
Göldner E.M., Seitz U. & Reinhard E.: Cryopreservation of *Digitalis lanata* Ehrh. cell cultures: Preculture and freeze tolerance 19
Willcox M.C., Reed S.M., Burns J.A. & Wynne J.C.: Effect of microspore stage and media on anther culture of peanut (*Arachis hypogaea* L.) 25
Beloualy N.: Plant regeneration from callus culture of three *Citrus* rootstocks 29
Katavić V., Jelaska S., Bakran-Petricioli T. & David C.: Host-tissue differences in transformation of pumpkin (*Cucurbita pepo* L.) by *Agrobacterium rhizogenes* 35
Millam S., Burns A.T.H. & Hocking T.J.: A comparative assessment of purification techniques for mesophyll protoplasts of *Brassica napus* L. 43
Do C.B. & Cormier F.: Accumulation of peonidin 3-glucoside enhanced by osmotic stress in grape (*Vitis vinifera* L.) cell suspension 49
Sharma K.K., Bhojwani S.S. & Thorpe T.A.: The role of cotyledonary tissue in the differentiation of shoots and roots from cotyledon explants of *Brassica juncea* (L.) Czern. 55

Abstracts section A1

Volume 24 No. 2

Paek K.Y. & Yeung E.C.: The effects of 1-naphthaleneacetic acid and N^6-benzyladenine on the growth of *Cymbidium forrestii* rhizomes in vitro 65
Nuutila A.M., Kurtén U. & Kauppinen V.: Optimization of sucrose and inorganic nitrogen concentrations for somatic embryogenesis of birch (*Betula pendula* Roth.) callus cultures: A statistical approach 73
Yang M.-Z., Jia S.-R. & Pua E.-C.: High frequency of plant regeneration from hypocotyl explants of *Brassica carinata* A. Br. 79
Kim Y.-H. & Janick J.: Abscisic acid and proline improve desiccation tolerance and increase fatty acid content of celery somatic embryos 83
Graham J. & McNicol R.J.: Regeneration and transformation of *Ribes* 91
Hérouart D., Sangwan R.S. & Sangwan-Norreel B.S.: Selection and characteristics of a lactose-adapted *Datura innoxia* cell line grown in suspension culture 97
Branca C., Bucci G., Domiano P., Ricci A., Torelli A. & Bassi M.: Auxin structure and activity on tomato morphogenesis in vitro and pea stem elongation 105

Davis M.E., Lineberger R.D. & Miller A.R.: Effects of tomato cultivar, leaf age, and bacterial strain on transformation by *Agrobacterium tumefaciens* 115
Lulai E.C. & Sowokinos J.R.: Lipolytic and peroxidative enzyme expressions in cultured potato tuber cells 123
McClean P., Chee P., Held B., Simental J., Drong R.F. & Slightom J.: Susceptibility of dry bean *(Phaseolus vulgaris* L.) to *Agrobacterium* infection: Transformation of cotyledonary and hypocotyl tissues 131
Taticek R.A., Moo-Young M. & Legge R.L.: The scale-up of plant cell culture: Engineering considerations 139
Instructions to Authors 159

Volume 24 No. 3

Benson E.E. & Hamill J.D.: Cryopreservation and post freeze molecular and biosynthetic stability in transformed roots of *Beta vulgaris* and *Nicotiana rustica* 163
Matthews D., Mottley J., Horan I. & Roberts A.V.: A protoplast to plant system in roses 173
Kozai T., Ohde N. & Kubota C.: Similarity of growth patterns between plantlets and seedlings of *Brassica campestris* L. under different in vitro environmental conditions 181
Baraldi R., Malavasi F.F.F., Predieri S. & Castagneto M.: Effect of potassium humate on apple cv. 'Golden Delicious' cultured in vitro 187
Southworth D. & Kwiatkowski S.: Somatic embryogenesis from immature embryos in meadowfoam *(Limnanthes alba)* 193
Franklin C.I., Trieu T.N., Gonzales R.A. & Dixon R.A.: Plant regeneration from seedling explants of green bean (*Phaseolus vulgaris* L) via organogenesis 199
Strobel J., Hieke M. & Gröger D.: Increased anthraquinone production in *Galium vernum* cell cultures induced by polymeric adsorbents 207
Lorences E.P. & Fry S.C.: Absolute measurement of cell expansion in plant cell suspension cultures 211
M'Kada J., Dorion N & Bigot C.: In vitro micropropagation of *Arctostaphylos uva-ursi* (L.) Sprengel.: Comparison between two methodologies 217
Compton M.E. & Veilleux R.E.: Shoot, root and flower morphogenesis on tomato inflorescence explants 223
Lu C.S., Sharma H.C. & Ohm H.W.: Wheat anther culture: effect of genotype and environmental conditions 233
Vidhyasekaran P., Borromeo E.S., Ling D.H. & Mew T.W.: Relationship between growth rate of *Helminthosporium oryzae* isolates on calluses of rice cultivars and their disease reaction on rice plants 237
